Postcode type and position

4 digits to the right of the abbreviation of the State.

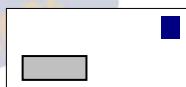

Coding method

2 0 6 0

Position of the address on the envelope

Bottom left-hand corner

Alignment of address lines

Left-aligned

Address format

Australia Post recommendations:

- characters should be between 1.8 and 7 mm high and between 0.3 and 7 mm wide; Australia Post prefers fixed-width fonts like Courier 12;
- each line should contain a maximum of 40 characters, including spaces;
- the use of punctuation marks should be avoided; they are, however, acceptable in the line containing the addressee name, and are also accepted for separating specific address elements;
- the territory or state abbreviation is separated from the locality name by one or (preferably) two spaces;
- the postcode is separated from the territory or state abbreviation by one or (preferably) two spaces;
- the last two lines should be printed in upper case.
