

Kyrgyzstan

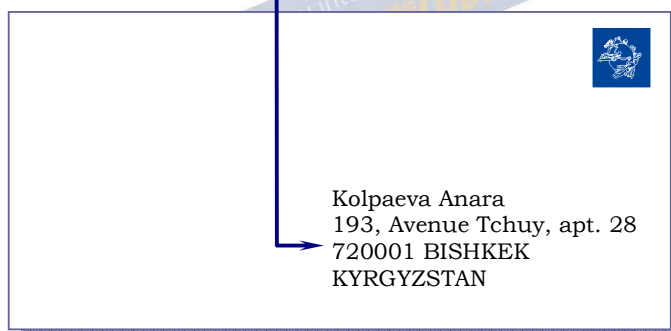

Postcode

Postcode type and position

6 digits to the left of the locality name.

Coding method

7 2 0 0 0 1

Address format

Addresses in the Republic of Kyrgyzstan start with the smallest element (addressee) and end with the largest element (town). The name of the destination country always appears on the final line.

- line 1: name of addressee,
- line 2: building number, street name and apartment,
- line 3: postcode and name of locality,
- line 4: name of country.
